§ 200-1 Purpose.

The erection of tents for the temporary enclosure of persons or property typically incident to a social event risks adversely impacting the peace and quiet of residential neighborhoods within the Village, and this chapter is intended to enable a review of any such planned activity so as to protect the public interest, including the expectation of peace and quiet particularly during seasonal periods of greater activity.

E. Any such application shall be approved or denied by the Board of Trustees, which, in its discretion, may require a public hearing on any such application if the Board determines there is a substantial risk of any of the following:
